IMPORTANT ANNOUNCE REGARDING ACT 2006-586

The November 6, 2007 memorandum from the Department of Revenue regarding Act 2006-586 stated that individuals needed to hold an Alabama Electrical Contractors license from this Board before you could issue a business license for your city. This is an error and should not be a requirement of anyone licensed or obtaining a license in your city as an electrician. Please proceed with issuing business licenses for electricians as you previously did before this memo from the Department of Revenue.

Thank you for your assistance and cooperation in this matter. Please do not hesitate to contact me should you have any questions.

Sincerely,

Keith E. Warren
Executive Secretary
